

DRYWALL REVEAL

TRIM PURPOSE

- Creates an aesthetic division between drywall panels on vertical walls and ceilings
- Used to create horizontal or vertical lines and can intersect cleanly where desired

SPECIFICATIONS

- Standard extruded aluminum alloy 6063 T5
- Have a typical .050" nominal wall thickness or greater
- Come in 10 foot lengths
- Stocked as Clear Anodized and Mill Finish (for field painting or priming)
- Chem-film, other factory finishes and custom paint are available
- Can be bent into corners, intersections and radius (but will be considered a custom part)
- Certain sizes come with alignment splices to ease installation
