

ACOUSTICAL CEILING CLOUD EDGE

TRIM PURPOSE

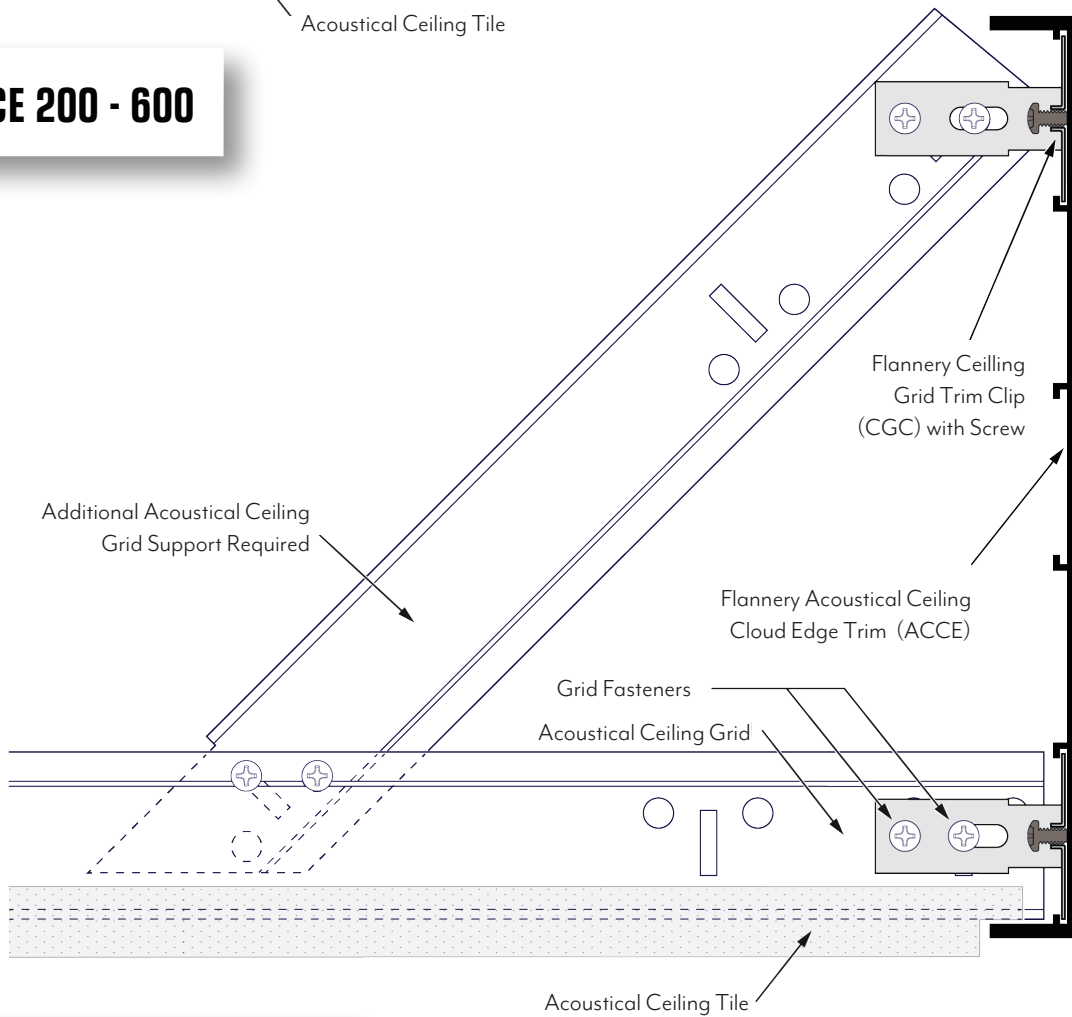

The Strata Acoustical Ceiling Cloud Edge (ACCE) trim creates a solid perimeter for a suspended acoustical ceiling. Once installed, the trim allows the acoustical ceiling to appear as if it were a “cloud” hovering over the project space instead of a typical suspended ceiling. The Strata Cloud Edge comes in a variety of sizes from 2” to 12” high. Clips and Splices included.
