

DRYWALL CEILING CLOUD EDGE

TRIM PURPOSE

Flannery's Drywall Ceiling Cloud Edge (DCCE) trim attaches to suspended drywall ceiling track to create a solid edge for the ceiling. The DCCE reduces material and labor costs by eliminating the need for attaching additional drywall and cornerbeads to finish the edges of a suspended drywall ceiling. Clips and splices are included.

PART NO.	"A" DEPTH	"B" WIDTH
DCCE 250	2 ½"	¾"
DCCE 400	4"	¾"
DCCE 600	6"	¾"
