

# ACOUSTICAL CEILING CLOUD REVEAL

## TRIM PURPOSE

Flannery's Acoustical Ceiling Cloud Reveal (ACCR) forms a solid perimeter around a suspended acoustical ceiling while also creating an aesthetic reveal between the tile and the trim. The ACCR's lower flange is meant to be inserted into acoustical tiles that are designed to hide the ceiling grid flanges when installed. Clips and splices are included.

PART NO.	"A" DEPTH	"B" WIDTH
ACCR 200	2 7/16"	3/4"
ACCR 400	3 31/32"	3/4"
ACCR 600	5 13/16"	3/4"
